

Make Every Day A Vacation

Why Choose Alaglas?

An Alaglas Fiberglass Pool opens a world of opportunities like no other home improvement can. Owning your own pool turns every day into a vacation - just step outside into your backyard paradise!

We use only the highest quality materials in our manufacturing process so your Alaglas Pool will last for years to come!

Let us show you how the advantages of a premium fiberglass in-ground pool can benefit your life!

Advantages of Fiberglass...

OVER VINYL-LINER POOLS

Outstanding Gelcoat Finishes - smooth, durable, algae inhibiting

No Liner Replacements - which can cost \$4,000 or more

Higher Resale Value - considered a long-term structure

Better Coping - concrete or fiberglass, no aluminum

Superior Strength - no ripping or tearing

Lower Lifetime Costs - due to overall durability

OVER CONCRETE POOLS

Outstanding Gelcoat Finishes - non-porous & algae inhibiting

Reduced Installation Time - usually 2 - 4 weeks total

Lower Maintenance - no acid washing, no resurfacing

Lower Chemical Usage - less algae means less chemicals

Superior Strength - no chipping or cracking

Lower Lifetime Costs - due to durability & low maintenance

What is the Alaglas Difference?

Not ALL fiberglass pools are made the same! The strength of a fiberglass pool is directly related to the amount and weight of fiberglass within the laminate structure. More fiberglass equals greater strength.

Alaglas manufactures the thickest pool in the fiberglass pool industry, providing an extremely strong, high-quality pool shell that is built to last for years. While most manufacturers use a 24/10 oz. fabric and/or chopped fiberglass material, Alaglas Pools incorporates a 36/10 oz. Stitch-Knit Fabric and multiple layers of fiberglass-reinforced resin within the lamination structure of each pool to offer the highest content per square yard of any other manufacturer in the industry.

At Alaglas Pools, our goal is to bring your family the strongest and most beautiful, high-performance, color-based products available on the market. In fact, we are so sure of the superior strength of our pools that we offer a 50-Year Structure and a 10-Year Surface Warranty on all pool shells! You can purchase an Alaglas Pool with confidence, knowing your pool is built to last and protected by the Alaglas Warranty.

Pool & Spa Finishes

NEW VIBRANT COLORS WITH A SHIMMER EFFECT!

We invested many years of research and development into our solid surface finishes and have never settled for anything but the best. This dedication to excellence led us to the discovery of our highest-quality, most beautiful pool colors yet!

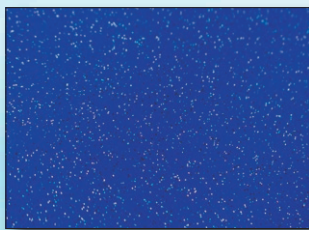

Our new surface finishes not only incorporate the finest raw materials, but also happen to be some of the most vibrant colors on the market. Our new color range also offers an additional "shimmer" effect that brightens and complements your pool's reflective color, that will enhance your entire backyard aesthetics.

As always, Alaglas Pools surfaces are smooth and non-abrasive, so your pool is both beautiful and safe for sensitive skin.

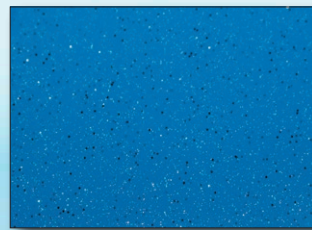

Pool & Spa Colors

Alaglas offers a variety of colors to make your pool unique. Choose from one of our four NEW "shimmer" finishes (Ocean, California, Slate or Sandstone) or our standard White gelcoat finish.

Pool Options & Add-On Accessories

Fully Customize Your Alaglas Experience!

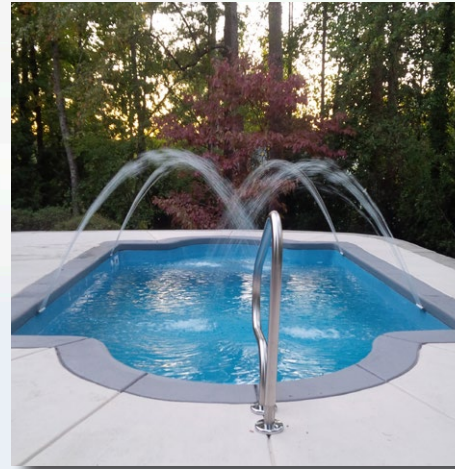

Our Alaglas Dealers are fully licensed, certified, and trained to install Alaglas fiberglass pools, and create the complete backyard oasis of your dreams. Collaborate with our dealers to design and construct your ideal decking and surrounding landscape opportunities; even take it to the next level with custom lighting, water features and other add-ons!

To create a pool that stands out and reflects your sense of style, you can hand-pick all your preferred accessories through your builder. Choose your LED lighting, add bubblers to your tanning ledges, install water fountains or jet streams, create beautiful (and relaxing) waterfalls and ledges, or incorporate any combination of these amazing features to help make it your own little "slice of paradise". Many dealers also offer decorative waterline tile that would enhance the colors of our already vibrant, shimmering gelcoats. Ask your dealer about all your customization options and see how they can transform your backyard space!

Lighting Re-imagined

Enjoy setting a serene mood or a festive party atmosphere with our added lighting features. Whether you go for a night swim or are entertaining guests at poolside, an LED or Fiber-Optic lighting system will enhance your experience! LED color-changing lights bring an added level of excitement and ambiance to your pool and surrounding area. Ask your authorized Alaglas Dealer about all your lighting options!

Water Features

By adding a water feature to your Alaglas Pool, you create a calming space for relaxation and comfort. Enjoy the ambient sounds of cascading water while floating or lounging poolside. Water features add a little style and beauty to any pool; from fountains and waterfalls to bubblers and jets, our authorized Alaglas dealers can customize your pool to design a truly unique environment to suit your needs and aesthetic style!

Waterline Tile

Adding waterline tile to your pool or spa elevates it from "standard" to exceptional. Tile and silicone grout are easy to clean which helps to simplify weekly waterline maintenance. Choose from a wide selection of styles and colors, specific to pool installations, directly through your authorized Alaglas Dealer. Our pool builders are happy to offer advice and assistance, to ensure your tile choice fits perfectly with your overall vision.

Installation

Our qualified dealers could have you swimming within weeks!

Here is where a fiberglass pool from Alaglas Pools really shines! The entire fiberglass pool installation process, from initial layout in your backyard to swimming in your new pool, only takes a few weeks; whereas concrete or vinyl-liner pools can take up to several months!

With an Alaglas Pool, our certified dealers can ensure there is less mess in your backyard, for a shorter time, allowing you to enjoy your new pool sooner!

Let's walk through the simple process of installing an Alaglas Fiberglass Pool...

Photo Credit: PoolDrs.com

Layout & Excavation

Our dealers carefully outline the pool layout on the ground for precision. The hole is dug to exacting specifications to achieve the proper shape and depth. Any drainage materials are laid and the ground is leveled and compacted for optimum support.

Setting the Pool Shell

The pool is brought in, and our dealers set in place and leveled. Then the precision process of filling the pool with water while backfilling for support begins. All plumbing and electrical wiring are completed; pool pump(s) and filtration systems are installed. Each system is checked for operation and quality.

Finish with Decking

Depending on the coping and deck materials chosen, poured concrete, pavers, travertine, or bricks are added by one of our amazing dealers to complete the installation. The pool and surrounding areas are cleaned up, and your beautiful new pool is now complete and ready for swimming!
